ROCKY ROSS

HUNDREDS OF BRAND & MEDIA CREDITS — HERE ARE SOME

BACKGROUND

Rocky has always been a true entertainer and creative force. Even at a young age he was a motivated trendsetter, following in the footsteps of his 2 older brothers. His brothers introduced him to Hip Hop culture, music and breakdancing, and by age 6 Rocky was already training, entering and winning competitions. He also began training in other elements and simultaneously added art, graffiti, and his favorite, Djing. His love for Hip Hop inspired him to start teaching, as well as creating and leading his own competition crews. By age 15 he was DJing paid monthly parties, and when that wasn't enough, he started his own popular event company. He was advancing his skills and rep as a DJ, while top crews and crowds travelled from all over America to experience Rocky's huge jams and competitions. At age 18 Rocky was already widely known and successful in each element that he juggled. After graduating high school in Colorado, Rocky was hired for his first year-long North American tour. His next move was to Hollywood, California, where he started as a weekly DJ at the World Famous Comedy Store, spinning for famous comedians. Exclusive celebrity events, top nightclubs, concerts, TV shows, radio, commercials and more tours soon followed. Rocky now feels very blessed to have performed across the world at countless, amazing top venues, epic events and has been a regular on many famous TV and radio shows.
